

2020AW knit  
(wool)

We are happy to introduce our soft knit.

Not only weaving textile but also knitting!

We tamaki niime pursued comfort and one of a kind work.

2020AW wool knit became softer, thinner

and more comfortable.

And more, washable knit came up as well,

and it became more easy to wear and easy to care!

The key points of this year's knitwear are

①SOFT

②LIGHT

③MULTICOLORED

POINT  
① SOFT

As for tamaki niime's shawl, it is characterized

by the softness.

The knit became more soft as well at last,

and we created a soft and hard-to-itchy knit.

Since we use soft and thin wool yarn

it has excellent texture.

We knit it more loosely, but it is warm

because it's wool.

POINT  
② LIGHT

Especially CA knit rainbow and TO knit zigzag

were knitted by thin wool yarn,

they are soft and warm.

You don't feel weights when you wear them

and less stiff feeling, and easy to layering.

Lots of good thing!

POINT  
③ MULTICOLORED

You can see tamaki niime's colorfulness as well in knit.

The combination of colors varies,

and nuances are slightly different.

To make it one of a kind knit,

we use various colors and play uneven dyeing.

Seemingly, with the similar red knit,

there are various variations.

Please find your own knit!

## How to care

Please do dry cleaning,

due to the nature of wool.

If you really want to wash it at home,

please press gently to wash.

Since 2020AW "CA knit rainbow" and "TO knit zigzag"

are made from shrink-proof wool,

you can do gentle wash with fine mesh net.
