Not only designs, but tamaki niime
also cultivates organic cotton, dyes yarn,

sells at the Shop&Lab in Nishiwaki,
and we continue to create
what we really want.

And we are also working
on a collaboration
with empathetic creators.

We will start Machida shop in Tokyo

About TRUSS WALL HOUSE

tamaki niime TOKYO MACHIDA is located in the
"TRUSS WALL HOUSE" (1993)

where Eisaku Ushida and Catherine Findlay are worked on.

It is located along the Odakyu railway line and
is widely known among local residents and architecture fans.

It is one-of-a-kind building that uses the truss wall
construction method and uses concrete to create free curves.

Niime Tamaki was so impressed by the fact
that it was a home where the family lived in
a mysterious space reminiscent

of a cave for many years and

she took over the building as much as possible
and decided to run the directly- managed store.

"I want to make a place where people can feel
and touch tamaki niime's creation directly.

As we were unable to open any events,
my desire grew stronger and stronger.

However for a long time,

we could not decide where would be
a right place for our aim to create unique works.

The moment I saw TRUSS WALL HOUSE,

I was fascinated by the designer,
the people who built it,

and the families who lived here.

Due to the Corona disaster,

it took over a year to open but will finally be unveiled.

For those who have become fans from our online shopping,

I hope you will come here to touch and wear them,

and try out those comfort
and lightness as well as the many colors
and designs.

I hope this will be a place to connect between our creators and you.

We look forward to seeing you there."
